

Cyber Security

In January 2022, we partnered with the NI Cyber Security Centre to ask our community of NI urbanites all about staying secure online. Cyber security and staying secure online is more important than ever, especially as we are all spending more time online whether working, shopping or socialising online. Inside this month's survey we cover things like strong passwords, phishing awareness and how to protect yourself from a cyber attack. Here's a snapshot of what our Northern Ireland Urbanites told us...

Confidence in password security

Patching for protection

Cyber attack technique awareness

Cyber-attack preparation

Cyber attacks

Top 5 cyber security information sources

CYBER ATTACK REPORTING

18% Have reported an incident of cyber crime in the past

CYBER ATTACK INFORMATION

55% Would like to learn more about how to keep themselves secure online

CYBER ATTACK AWARENESS

75% Think there needs to be more awareness on preventing cyber attacks
